HASNA CH

MERN STACK DEVELOPER

Kannur | Kerala | India | hasnahamza807@gmail.com | 9526162401

PROFILE INFO

Motivated and detail-oriented MERN Stack Developer with 1 year of internship experience in building responsive and user-focused web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in frontend and backend development, API integration, database handling, and UI design. Passionate about creating meaningful digital products, solving problems through code, and continuously improving through hands-on project development.

PROJECTS

Zenly – Student Wellbeing Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Figma

- Developed a student wellbeing platform that helps users track emotions, improve focus, complete mood-based challenges, and connect with professional support.
- Designed the concept and UI independently, making it a self-initiated original project.
- Implemented frontend-backend integration and user-centered features.
- Strengthened skills in full-stack development, debugging, and design thinking.

BagHaven – Full Stack E-commerce Bag Shop

Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript

- Built a full-stack e-commerce web application for browsing and purchasing bags online.
- Developed product display pages, cart functionality, and backend integration.
- Worked on CRUD operations, database handling, and frontend-backend communication.

Zyra – E-commerce Dress Shop

Tech Stack: React.js, JavaScript, HTML, CSS

- Created a responsive e-commerce dress shop using React and a simulated backend.
- Built reusable components and product-based user interfaces.
- Focused on frontend design, responsiveness, and user experience.
